

*Daima*

More to sea.

—

Daima was launched in late 2009 by Arkin Pruva Yachts. She was built to fulfil her owner's dreams of enjoying a yacht that was big enough for the whole family whilst being agile and easy to handle on the water.

Her large well-appointed cabins, generous outside spaces, ample storage and state-of-the-art entertainment systems make the yacht ideal for the Mediterranean lifestyle.

---

Daima also enjoys low fuel consumption and excellent performance under sail: at anchor or under way she is very quiet with little or no vibration to mar the ride; this all makes for restful, peaceful living.

She has won the Bodrum Cup three times having achieved remarkably fast times over the course.

She readily combines the very best facets of a motor sailer: she is swift and sure when using her twin engines, whilst her modern sail plan enables her to sail comfortably at 9 knots when close to the wind.

---

Agile, quick  
and stylish

---

—

She is finished to an exceptionally high standard and has proved to be an agile, quick and stylish yacht, eminently suited to cruising the Mediterranean and beyond.

—

A refined elegance and meticulous attention to detail is apparent everywhere you look; the entertaining areas both on and below deck are superbly appointed.

Refined elegance  
and meticulous  
attention to detail

Luxurious cabins for the owner and up to eight guests provide a cruising experience that many thought had long since passed.

# Chartering Daima

---

When not in use by the owner and his family, Daima is available to charter.

She has already been chartered by several VIPs and their guests who come back time after time to enjoy her many attributes whilst enjoying the serenity and peace she affords.
